INTERNSHIPS

MINISTRY OF ENERGY TRANSITION AND SUSTAINABLE DEVELOPMENT from 01/07/2022 to 29/07/2022
Observation internship within the Department of Computer Science. *Rabat*

During this internship, I worked on a minimalist application for managing technician interventions using Python.

PROJECTS

Object detection program in Python.

· I worked on a program that allows real-time detection of the presence, position, and nature of an object. *Python, Pandas.*

Creating a desktop application for managing a library

· I worked on a desktop application that enables students to book and borrow books from the library. Additionally, it provides the admin with the ability to manage and monitor book borrowings from the library using Python and MySQL. *Python, custom-tkinter.*

ACTIVITIES

sports	play football with friends
Esport	Gamer.
